

FULL FRONT END PPF + CERAMIC

BODY

At [Shop Name Placeholder], explore our full front end PPF and ceramic coating package with [Offer Placeholder]. The film helps protect the covered front-end paint from stone chips and light scratches, while the coating helps dirt wash off more easily and enhances gloss. Enjoy paint protection and easier upkeep in one package. Click the link now.

HOOKS

1. Road debris doesn't just hit your bumper. The rest of your front end needs paint protection too.
2. If highway miles keep leaving chips across your front end, give that exposed paint a layer of protection.
3. Every drive puts your front end in the path of loose stones. Protect the paint facing them first.
4. Worried about stone chips and stubborn road grime? Get paint protection with easier cleanup in one package.
5. Your front end takes the hits, then the cleanup takes your weekend. Give yourself protection and simpler washes.
6. Keeping your car looking good means handling chips and grime. This package helps with both problems together.
7. Just picked up a new car? Protect the front end and make keeping that fresh finish clean easier.
8. Before your first road trip leaves marks on that new paint, give your front end some extra protection.
9. Already budgeting for front-end PPF? Get easier cleaning and extra gloss with ceramic coating.
10. Want protection from road chips and paint that's easier to clean? Get both benefits in one front-end package.
